

Ioannis Seimenis is a medical physicist currently serving as Professor of Medical Physics at the National and Kapodistrian University of Athens (NKUA). Ioannis is currently the elected president of the Hellenic Federation of University Teachers' Associations and the elected vice-president of the Hellenic Association of Medical Physicists. He chairs the Committee of the Greek Atomic Energy Commission for the certification of Radioprotection Experts in medical exposures and he is a member of the Ministry of Health Committee for Ionising and non-Ionising Radiations. He participates in the "Physics in Medical Imaging" Subcommittee of the European Congress of Radiology (ECR) for the last three years, whilst he chairs it for ECR 2025. He currently serves as the EFOMP (European Federation of Organisations for Medical Physics) representative in the ESMRMB (European Society of Magnetic Resonance in Medicine and Biology), while he is one of the founding members of the EFOMP Special Interest Group in MRI. His main research interests lie in the field of medical imaging. Ioannis has co-authored 146 peer-reviewed scientific publications, as well as 165 peer-reviewed abstracts in international conference proceedings. He has given 51 invited talks in national and international Scientific Meetings or Congresses, and he has served as invited Moderator/Chairman in numerous scientific sessions. Ioannis has participated, as senior investigator or scientific coordinator, in 32 competitive research projects funded by national and international research promoting bodies.
